

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

You are about to purchase a product that is not simple and may be difficult to understand.

Product

Product name	Capital Protection Certificate on Technology Select Sector SPDR Fund
Product identifiers	ISIN: AT0000A3JQL8 Series number: 54988 German Wertpapierkennnummer: RC1G9R
Manufacturer of the Product	Raiffeisen Bank International AG (Issuer)/ www.raiffeisencertificates.com/ call +43 1 71707 5454 for more information
Competent Authority	Financial Market Authority (FMA), Austria
Date and time of production	20 February 2025 11:30 Vienna local time

1. What is this product?

Type This product is issued under Austrian law and entitles the respective holder to receive any amount due from us as the Issuer (bearer form).

Term The product has a fixed term and will be due on 21 September 2028.

Objectives The product is designed to provide a return in the form of a cash payment on the **maturity date**. The amount of this payment will depend on the performance of the **underlying**.

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

On termination of the product on the **maturity date** you will receive a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** divided by (B) the **initial reference price**. However, if this cash payment exceeds USD 1,310, you will only receive USD 1,310 (the maximum payment) and if it is less than USD 1,000, you will receive USD 1,000 (the minimum payment).

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

You do not have any entitlement to a dividend from the **underlying** and you have no right to any further entitlement resulting from the **underlying** (e.g., voting rights).

Underlying	Shares of the Technology Select Sector SPDR Fund (ISIN: US81369Y8030; Bloomberg: XLK UP Equity; RIC: XLK.P)	Participation rate	100.00%
Underlying market	Equity	Strike price	100.00% of the initial reference price
Product notional amount	USD 1,000	Cap	131.00% of the initial reference price
Issue price	100.00% of the product notional amount	Reference price	The closing price of the underlying as per the reference source
Product currency	U.S. Dollar (USD)	Reference source	State Street Global Advisors
Underlying currency	USD	Final reference price	The reference price on the final valuation date
Issue date	21 March 2025	Initial valuation date	20 March 2025
Initial reference price	The reference price on the initial valuation date	Final valuation date	18 September 2028
Protection amount	USD 1,000	Maturity date / term	21 September 2028

Intended retail client

The product is intended for private clients, professional clients and qualified counterparties who pursue the objective of general asset accumulation/asset optimization and have a maximum of a medium-term investment horizon. This product is for customers with basic knowledge and/or experience with financial products. The investor can bear no or only small losses on the capital invested and is willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product until 21 September 2028. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios

The recommended holding period for this product ends at the next scheduled investment valuation date. If the product is not terminated then, you need to carefully consider the adjusted product terms and decide to either (1) stay invested or (2) divest by exercising or selling the product.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		3 years and 6 months	
Example investment:		USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 3 years and 6 months (Recommended holding period)
Minimum	USD 10,000. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 8,593	USD 10,000
	Average return each year	-14.00%	0.00%
Unfavourable	What you might get back after costs	USD 10,751	USD 10,768
	Average return each year	7.47%	2.14%
Moderate	What you might get back after costs	USD 11,297	USD 13,100
	Average return each year	12.89%	8.02%
Favourable	What you might get back after costs	USD 11,485	USD 13,100
	Average return each year	14.76%	8.02%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the underlying over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if Raiffeisen Bank International AG is unable to pay out?

The product is not covered by any statutory or other deposit protection scheme. You may suffer a total loss of your investment if Raiffeisen Bank International AG is unable to make the payments due under the product. This may occur if Raiffeisen Bank International AG becomes insolvent or is affected by resolution measures taken by the competent authority before an insolvency. These measures (referred to as "bail-in") include the partial or full write-down of the notional amount or the conversion of the product into shares of Raiffeisen Bank International AG.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested

If you exit after 1 year

If you exit after 3 years and 6 months

Total costs	USD 169	USD 169
Annual cost impact*	1.71%	0.53% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.55% before costs and 8.02% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

	One-off costs upon entry or exit	If you exit after 1 year
Entry costs	1.69% of the amount you pay when entering this investment. These costs are already included in the price you pay.	USD 169
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	USD 0

5. How long should I hold it and can I take money out early?

Recommended holding period: 3 years and 6 months

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 21 September 2028 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Percentage
Smallest tradable unit	USD 1,000.00		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Complaints about the product or the conduct of the product manufacturer should be addressed in writing to Raiffeisen Bank International AG, Beschwerdestelle (716B) AG, Am Stadtpark 9, 1030 Wien or may be sent by email to complaints@raiffeisencertificates.com. Further information regarding complaints can be found on <https://www.raiffeisenzertifikate.at/en/contact/complaints/>. Complaints about any person advising on or selling the product should be addressed to the respective bank or product distributor.

7. Other relevant information

The final terms setting out the terms and conditions of the product and the prospectus including any supplements thereto on the basis of which the product is issued have to be published on the website of the issuer www.raiffeisencertificates.com. In order to obtain additional detailed information on the structure of the product and the risks associated with an investment in the product you should carefully read these documents.

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for an individual consultation with your bank or your advisor.

This Key Information Document is for submission in Romania.
